

Cleartack® W 85 Safety Data Sheet

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Section 1: Identification	
1.1. Product identifier	
Product form	: Substance
Product Identifier(s)	: Cleartack® W 85 Norsolene EU W85
CAS-No.	: 9011-11-4
1.2. Recommended use of the chemical	l and restrictions on use
Use of the substance/mixture	: Additive for paints, coatings, inks, adhesives Rubbers
1.3. Details of the supplier of the safety	data sheet
Total Petrochemicals & Refining USA, Inc. Cray Valley Division PO Box 674411 Houston,TX 77267-4411	
For non-emergency product information: Phone: 713-483-5000 or 1-877-871-2729 Email: product.stewardship@total.com	
1.4. Emergency telephone number	
Emergency number	: CHEMTREC: 1-800-424-9300 (Toll Free USA & Canada) / 703-527-3887 (Multiple languages) Total Petrochemicals & Refining USA, Inc.: 1-800-322-3462 (Language: English only)
2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust	nixture
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling 	nixture
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling 	nixture : Warning
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) 	
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 	: Warning : If small particles are generated during further processing, handling or by other means,
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information.
Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US)	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified Other hazards not contributing to the classification 2.4. Unknown acute toxicity (GHS-US) 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information.
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified Other hazards not contributing to the classification 2.4. Unknown acute toxicity (GHS-US) Not applicable 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information.
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified Other hazards not contributing to the classification 2.4. Unknown acute toxicity (GHS-US) Not applicable 2.5. Additional information Based on conditions common to industrial 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information.
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified Other hazards not contributing to the classification 2.4. Unknown acute toxicity (GHS-US) Not applicable 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information. Product can accumulate electrostatic charges that may cause fire by electrical discharges. Contact with skin or eyes with hot material may cause serious thermal burns. Vapors formed when material is processed at high temperatures may be irritating to the eyes
 2.1. Classification of the substance or n Classification (GHS-US) Combustible Dust 2.2. Label elements GHS-US labeling Signal word (GHS-US) Hazard statements (GHS-US) Precautionary statements (GHS-US) 2.3. Hazards not otherwise classified Other hazards not contributing to the classification 2.4. Unknown acute toxicity (GHS-US) Not applicable 2.5. Additional information Based on conditions common to industrial workplace use of this product 	 Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air Precautionary statements not required. Consult the SDS for additional safety information. Product can accumulate electrostatic charges that may cause fire by electrical discharges. Contact with skin or eyes with hot material may cause serious thermal burns. Vapors formed when material is processed at high temperatures may be irritating to the eyes and upper respiratory tract. Dust from this product may cause respiratory irritation. Repeated or prolonged contact may cause slight irritation to the skin.

••••••		
Substance type	: Polymer	
Chemical name	: Ethenylbenzene, copolymer with (1-methylethenyl)benzene	
CAS-No.	: 9011-11-4	
Generic name	: Hydrocarbon Resin	
Date of issue: 07/24/2018	EN (English US)	Page 1

Safety Data Sheet

3.2. Mixture

Not applicable

Sectio	on 4: First aid measures	
4.1.	Description of first aid measures	
First-aid	measures after inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
First-aid	d measures after skin contact	: Gently wash with plenty of soap and water. If irritation persists, consult a doctor. Heated Material: For serious burns from heated material, get medical attention. In case of skin contact, immediately immerse in or flush with clean, cold water.
First-aid	l measures after eye contact	: Rinse cautiously with water for several minutes. Obtain medical attention if pain, blinking, tears or redness persist.
First-aid	measures after ingestion	: Rinse mouth out with water. If necessary seek medical advice.
4.2.	Most important symptoms and effe	rts, both acute and delayed
Sympto	ms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.
4.3.	Indication of any immediate medica	I attention and special treatment needed
Treat sy	mptomatically.	
Sectio	on 5: Firefighting measures	
5.1.	Extinguishing media	
Suitable	e extinguishing media	: Water spray or fog. Carbon dioxide. Foam. Dry chemical. Dry powder. Sand.
Unsuita	ble extinguishing media	: Use of heavy stream of water may spread fire.
5.2.	Special hazards arising from the ch	emical
Fire haz	zard	: vapors may cause fire/explosion if source of ignition is present.
Explosi	on hazard	 Potential dust explosion hazard. Avoid raising powdered material due to explosion hazard. Local exhaust and general room ventilation are both essential to prevent accumulation of flammable vapor or dust mixtures.
Hazardo fire	ous decomposition products in case of	: Carbon oxides (CO, CO2). Toxic fumes. aromatic hydrocarbons.
5.3.	Advice for firefighters	
Firefigh	ting instructions	Fight fire from safe distance and protected location. Use water spray or fog for cooling exposed containers. Avoid raising powdered materials into airborne dust, creating an explosion hazard. Apply aqueous extinguishing media carefully to prevent frothing/steam explosion. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.
Protecti	on during firefighting	: Do not attempt to take action without suitable protective equipment. Complete protective clothing. Self-contained breathing apparatus.
Sectio	on 6: Accidental release measu	ires
6.1.		uipment and emergency procedures
Emerge personr	ency procedures for non-emergency nel	: Material creates a slipping hazard on hard surfaces. Clean up spills from walking surfaces immediately.
Emerge respond	ency procedures for emergency lers	: No additional requirement.

6.2. Methods and material for containment and cleaning up

For containment	: Spilled material may present a slipping hazard. Sweep up or vacuum up the product.
Methods for cleaning up	: Dispose of materials or solid residues at an authorized site.

6.3. Reference to other sections

See section 8. Exposure controls/personal protection.

Safety Data Sheet

Section 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Ensure good ventilation of the work station. Wear personal protective equipment. Avoid contact with heated product to prevent burns.
	When heated above 170 °C for at least 20 minutes, alpha-methyl styrene is generated by depolymerization. Wear Approved organic vapor respirator.
	Combustible dust precautions: Handling this product may result in electrostatic accumulation. Use proper grounding procedures. Use only non-sparking tools. Avoid raising powdered material due to explosion hazard. Prevent the build-up of electrostatic charge. Refer to the latest edition of the National Fire Protection Association (NFPA) 654 publication, "Standard for the Prevention of Fire and Dust Explosions in the Chemical, Dye, Pharmaceutical, and Plastics Industries", for complete discussion on dust explosion prevention and control measures. The low Glass Transition (Tg) temperature of this product(s) make it prone to remassing.
Hygiene measures	: Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
7.2. Conditions for safe storage, including	g any incompatibilities
Technical measures	: Electrical equipment should conform to the National Electric Code.
Storage conditions	: Keep container tightly closed. Store in a dry, cool area. Protect from sunlight. Store in a well- ventilated place. degradation by free radicals OH.
Incompatible materials	: Strong oxidizing agents.
Storage temperature	: <25 ℃
Packaging materials	: Plastic.

Section 8: Exposure controls/personal protection

8.1. Occupational Exposure Limits

The following constituents are the only constituents of the product which have a PEL, TLV, or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Cleartack® W 85 (9011-	-11-4)	
USA ACGIH	ACGIH TWA (mg/m ³)	10 mg/m ³ inhalable dust
		3 mg/m ³ respirable dust
USA ACGIH	Remark (ACGIH)	Particulates, not otherwise classified
USA OSHA	OSHA PEL (TWA) (mg/m ³)	15 mg/m ³ (total dust)
USA OSHA	Remark (OSHA)	Particulates, not otherwise classified

8.2. Exposure controls

Appropriate engineering controls	: Ensure good ventilation of the work station. Safety shower. Eye founta	ain.
Hand protection	: Protective gloves.	
Eye protection	: Safety glasses.	
Skin and body protection	: Wear suitable protective clothing.	
Respiratory protection	: In case of inadequate ventilation wear respiratory protection.	

Section 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties		
Physical state	: Solid	
Appearance	: Pastilles.	
Color	: Colorless.	
Odor	: Mild. Hydrocarbon.	
Odor threshold	: No data available	
pH	: No data available	
Relative evaporation rate (butyl acetate=1)	: No data available	
Melting point	: No data available	
Freezing point	: No data available	
Boiling point	: No data available	
Flash point	: > 250 °C	
Auto-ignition temperature	: No data available	
Decomposition temperature	: No data available	
Flammability (solid, gas)	: No data available	
Date of issue: 07/24/2018	EN (English US)	

Safety Data Sheet

Vapor pressure	: No data available
Relative vapor density at 20 °C	: No data available
Relative density	: No data available
Specific gravity / density	: 1.05 - 1.07 g/m³ @ 20 °C
Solubility	: Soluble in most organic solvents. Soluble in aromatic hydrocarbons. Water: Insoluble
Log Kow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosion limits	: No data available
9.2. Other information	
Explosive properties	: Explosion Index, Kst (bar. m/s) : 200 - 315* Max. Explosive Pressure (Pmax), bar : 8.8*.
Minimum ignition energy	: 1 - 3 mJ *
Softening point	: 85 °C
Additional information	: Data denoted with an asterisk is from a representative product or class of products

Section 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.

10.2. **Chemical stability**

Stable under use and storage conditions as recommended in section 7.

10.3. Possibility of hazardous reactions

Dust may form explosive mixture in air.

Conditions to avoid 10.4.

Avoid the build-up of electrostatic charge. High temperature. Avoid dust formation. Direct sunlight. No flames, no sparks. Eliminate all sources of ignition.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

No additional information available

Section 11: Toxicological information		
11.1. Information on toxicological effect	ts	
Likely routes of exposure	: Inhalation. Ingestion. Skin and eye contact.	
Acute toxicity	: Not classified Based on available data, the classification criteria are not met	
Cleartack® W 85 (9011-11-4)		
LD50 oral rat	> 2000 mg/kg Directive (92/69/EEC) - Method B1 / (OECD 423 method)	
Skin corrosion/irritation	: Not classified Based on available data, the classification criteria are not met Not irritating to skin (rabbit)	
Serious eye damage/irritation	: Not classified Based on available data, the classification criteria are not met	
Respiratory or skin sensitization	 Not classified Based on available data, the classification criteria are not met Does not cause cutaneous sensitization for guinea-pigs 	
Germ cell mutagenicity	: Not classified Based on available data, the classification criteria are not met	
Carcinogenicity	: Not classified Based on available data, the classification criteria are not met	
Date of issue: 07/24/2018	EN (English US)	4/7

Safety Data Sheet

Reproductive toxicity	: Not classified
Specific target organ toxicity – single exposure	 Based on available data, the classification criteria are not met Not classified Based on available data, the classification criteria are not met
Specific target organ toxicity – repeated exposure	: Not classified Based on available data, the classification criteria are not met
Aspiration hazard	: Not classified Not applicable

Section 12: Ecological information

12.1. Toxicity

Ecology - general

: Do not allow product to spread into the environment.

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Other adverse effects

No additional information available

Section 13: Disposal considerations	
13.1. Waste treatment methods	
Waste treatment methods	: Transfer to a safe disposal area in accordance with federal, state, and local regulations.
Product/Packaging disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations.

Section 14: Transport information

US Transport (DOT) for Bulk Shipments (Non-Bulk Shipments May Differ) Not regulated by US DOT

Transport by sea (IMDG)

Not regulated by IMDG

Air transport (IATA)

Not regulated by IATA

Section 15: Regulatory information

15.1. US Federal regulations

EPA TSCA Status

All components of this product are listed or exempt from listing on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

SARA Section 313 Supplier Notification

This product contains no toxic chemicals in excess of the applicable de minimis concentration that are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

SARA Section 311/312 Hazard Classes	Fire hazard
Export Control Classification Number (ECCN):	EAR99 (No License Required)

Safety Data Sheet

15.2. International regulations

CANADA

Cleartack® W 85 (9011-11-4) WHMIS Classification

This product is not regulated according to WHMIS 2015 classification criteria

National inventories

Ethenylbenzene, copolymer with (1-methylethenyl)benzene (9011-11-4) Listed on the AICS (Australian Inventory of Chemical Substances) Listed on the Canadian DSL (Domestic Substances List) Listed on the China Inventory of Existing Chemical Substances (IECSC) Listed on the Korean ECL (Existing Chemicals List) Listed on NZIoC (New Zealand Inventory of Chemicals) Listed on the Philippines Inventory of Chemicals and Chemical Substances (PICCS)

15.3. US State regulations

This product may contain California Proposition 65 substances at concentration levels below those required to be classified as hazardous by OSHA's Hazard Communication Standard (29 CFR 1910.1200). Contact Total Petrochemicals & Refining USA, Inc. if you need specific information regarding status of this product with regard to California Proposition 65.

Section 16: Other information	
Other information	: Unless agreed to in a separate written agreement with the Customer, Total Petrochemicals & Refining USA, Inc. makes no representations and disclaims all warranties, express or implied, with respect to biocompatibility and/or the suitability of this product for medical device applications including : (i) implantable devices intended for human or animal body, (ii) devices intended to be used in contact with internal body fluids, and (iii) devices intended to be used in contact with internal body fluids, and (iii) devices intended to be used in contact Total Petrochemicals & Refining USA, Inc. and establish agreed terms and conditions for such use.
NFPA (National Fire Protection Association)	
NFPA health hazard	: 1
NFPA fire hazard	: 1
NFPA reactivity	
Hazard Rating	
Health	: 1
Flammability	: 1
Physical Hazard	: 0
Personal protection	: See section 8 of SDS
